

Envirotech Harmony Dimout Blind Fabric

“Intelligent Blind Fabrics, Protecting You and The Environment.”

This dimout fabric is made from 100% recycled post-consumer materials that have reached the end of their standard life cycle.

The materials are collected from general waste and polluted oceans, making the fabric highly sustainable.

The low-carbon fabric is fire retardant and resistant to moisture, meaning it can be cleaned with a damp sponge.

Harmony Dimout Recycled and Fire Retardant

	3000 mm	LT %	LR %	LA %	ST %	SR %	SA %	TUV%	GTOT	SC

- LT % : Light Transmittance
- LR % : Light Reflectance
- LA % : Light Absorption
- ST % : Solar Transmittance
- SR % : Solar Reflectance
- SA % : Solar Absorption
- TUV % : UV Transmittance
- GTOT : Total Value of Solar Energy
- SC: Shading Co-Efficiency

- Fabric Composition: 100% Recycled Polyester
- Fabric Range: 7
- Roller Fabric Width: 30m
- Roller Fabric Length: 30m
- Fabric Thickness: 0.36mm
- Fabric Weight: 235 g/m2
- Fire Retardancy: BS5867, Part 2: Type B
- Shading: Suitable for computer environments
- Moisture Resistance: Suitable for moist conditions
- Colourfast: IMO 2010 FTP CODE ANNEX 1 PART 7
